# Problem 4 – Flowerify

Create a web page (**HTML5 + CSS3 + images**) that looks and behaves like the screenshots below:

Follow us:

Input

You are given the above screenshots + all required images + the texts on the site.

Output

The output should be valid **HTML + CSS + images** that implement the above web page.

Constraints

- Use google font **PT Sans** - https://fonts.googleapis.com/css?family=PT+Sans
- Use **Font Awesome** - https://maxcdn.bootstrapcdn.com/font-awesome/4.7.0/css/font-awesome.min.css
- The site should open correctly in the latest version of Chrome
- Pixel-perfect implementation is **NOT** required
- You are **NOT** permitted to use libraries like Bootstrap
